DETAILED ACTION

1. Claims 1-36 are pending in this application.

Response to Arguments

2. Applicant's arguments filed 03/19/04 have been fully considered but they are not persuasive.

The applicant argues that "Miller Fails to Disclose or Suggest the Step of Calculating a Cache Benefit Index for a Set of Files"

The examiner respectfully disagrees with the above argument. At this point, the claim recited "calculating a cache index for a set of files" first of all the claim is not explicitly explain what the cache index are and does not explain how to achieve this. In the citation wherein the examiner previous cited, states "...using these values and basic mathematical calculation and comparison s, server computer 105 can determine wherein viewing computer 155 has a latest version of each required file by determining whether there is an entry 300 for the file identifier 310, and whether the corresponding entry 300 has the same CRC value 320 and file size 330. Based on these values, server/server extension 310 can download a complete file, or the remaining portion of a file to viewing computer 155" (col. 6, lines 40-48). This explains the calculating file identifier, CRC values and files size as to the calculating cache index as recited claim.

The applicant also argues that "Miller Fails to Disclose or Suggest of Determining Whether to Cache a Set of files...Based on Said Cache Benefit Index."

The examiner respectfully disagrees with the above argument. As discuss in - above, Miller calculating the threes values (file identifier, CRC and file size) and based

on these values to determine the server be able to download a complete file, or the remaining of a file to viewing computer 155 (col. 6, lines 31-48). The "determining whether to cache a set of files...Based on Said Cache Benefit Index" is the same functionality as to Miller. Unless the applicant explicitly explains in the recited claim limitations; otherwise the functionality of Miller's system is similar to the current claim limitations.

The dependent claims 2-18 and 20-36 are rejected under the same reason.

Please see the Office Action dated on 01/15/04 for all rejected claims.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
